Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Krishna Kalidindi on August 18, 2005.

The application has been amended as follows:

In claim 4, line 4; "Is" has been changed to --is--.

Claims 11-13 have been canceled.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the primary reasons for the allowance of the claims in this application are the limitations of a line support having a support member having an elongate body forming a loop and configured such that a positive biasing force is provided at a distal end of the line support, an alignment retainer located at distal ends of first and second support arms and capable of assisting in positioning the first and second support arms in abutment, and a bias adjustment mechanism configured such that the biasing force is selectively

adjustable, included in claim 1 and in combination with the other elements recited in the claim; and a line support having means for supporting having a positive biasing force, an alignment means located at the distal end of the means for supporting for maintaining the separation of the means for supporting in abutment, and an adjustment means for providing a selectively adjustable biasing force, included in claim 14 and in combination with the other elements recited in the claim. These combinations are not found in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
